Index to Volume 18, 1999

(No. 1 pp 1–52; No. 2 pp 53–109; No. 3 pp 110–173; No. 4 pp 175–261)

Around the Journals, Editorials and Book Reviews sections are indexed separately

Adverse drug reactions review section

achilles tendinitis 253
adrenaline 165
alcohol 235
anaphylaxis 165
antidepressants 5
antihypertensives 5
antimalarials 25
antipsychotics 5
aspirin 45
astemizole 169
beta-blockers 5
benoxaprofen 181
blood donation 254
bromfenac 181
cardiotoxicity 61, 108, 170
Chinese medicines—safety 53
chirality 181
clindamycin 169
clozapine 166
cyclosporin 169
cytotoxic chemotherapy 61
dibromoethane 125
dilevalol 181
diltiazem 172, 256
doxepin 171
drug exposure 181
emergency treatment 47
epidemiology 181
erectile dysfunction 5
failure to recognize 1
fexofenadine 108
fluclozacillin 181
fluconazole 168
fluoroquinolones 253
fluoxetine 256
formulations 181
free radicals 235
heparin 165
human albumin 149
ibufenac 181
impotence 5
interaction—clindamycin and cyclosporin 169
interacton—diltiazem and tacrolimus 172
interaction—drugs and antimalarial agents 25
interaction—fluconazole and nifedipine 168
interaction—fluoxetine and tolterodine 256
interaction—ketoconazole and tolterodine 257
interaction—moclobemide and rizatriptan 173
interaction—phenacetin and grapefruit juice 255
interaction—silfenadil and HIV 168
combination therapy 168
interaction—simvastatin and diltiazem 256
interaction—ticlopidine and phenytoin 45
interaction—warfarin and ritonavir 45
interaction—zidovudine and rifampicin 172
isoniazid 181
ketoconazole 257
metabolites 181
moclebemide 173
multiple myeloma 254
nicorandil 167
nicotinic acid 181
nifedipine 168
nightmares 48
nitrofurantoin 181
nomifensine 181
NSAID 169
oral contraception 257
orlistat in obesity 255
